Type III Mini-Mod

METRO

CHASSIS

Ford E350 Cutaway 138" wheelbase
Chev Cutaway 139" wheelbase

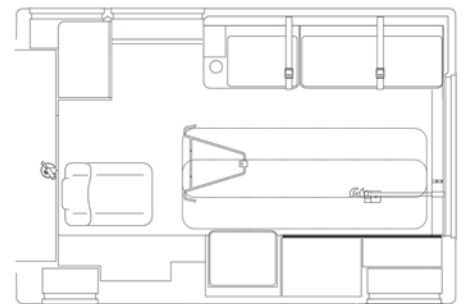

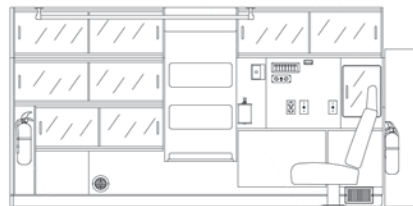

SELECT FEATURES

Exterior:

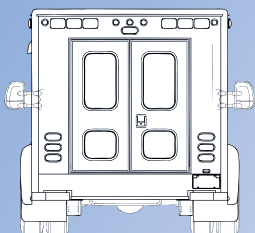

Drip rail is integrated into roof perimeter. Proven OEM paint system. Special body design with attention to dissimilar metals. Optional aerodynamic cab cap, with in-built emergency lights. Heavy-duty door design with continuous rubber seal, secured in groove of perimeter. Extra high side and rear entrance doors.

Patient Compartment:

Seamless cabinets incorporating rolled up flooring and removable cushions. High impact polyethylene trim for added protection. Sliding Plexiglas cabinet doors with "D" handles allowing for tamper-proof seals. Working and storage spaces optimized. Quick release, horizontal M-tank storage. Trash & sharps located at head of squad bench.

Serving the world
with quality products

Emergency Warning System:

LED & DOT lights available, minimizing power consumption and maintenance. Isolated siren drivers in bumper-mounted speakers, for prolonging service life.

Electrical/Environmental:

Ergonomically designed cab console. Electrical schematics provided on CD and in manual for ease of maintenance. AC / heat system with multiple air ducts optimizes temperature stability.

Body Design:

Unique narrow design built on a dual rear wheel chassis by incorporating custom designed wheel flare maximizing stability and ease of urban use.

Quality:

Built to ISO 9001-2000 and FORD QVM standards.

Product specification is available upon request.
